For seven years, Tzvi Freeman s reweaving of ancient tales have been one of the hottest hits on the Jewish web. Now they ve finally hit realspace for all the rest of us. The moon holds what would seem a hopeless argument with its Maker- who controls all that exists by voice-activated interface- and wins. The Heavenly Court noshes popcorn while entertained by 3D multimedia presentations- of bidders on a hot miracle contract. A psychotherapist discovers his client can t tolerate the laws of nature- because he was trained on the supernatural track by Heaven Incorporated. And an angel from the technical support desk discovers the secret of physicality- bringing it to market as a spiritual-to-physical travel device. Tzvi Freeman has already built a reputation for poetic literary style and depth of insight with his collection of short meditations, Bringing Heaven Down To Earth. In Heaven Exposed, he polishes the fables of the ancients with the fiery wisdom of the Kabbalah and welds them into a golden setting of science fiction to present us with a chest of magnificent jewelry. What makes this so spectacular is that the fables and the Kabbalah are as authentic as you can get. What s even more wondrous is that such deep wisdom could be made so much fun. As the author puts it, G-d is found in paradox- and it is paradox that makes people laugh.
