ABC-CLIO, United States, 1990. Paperback. Book Condition: New. New edition. 233 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.This is an important book because its focus is critical, and its aim is to demystify the prevailing ideology of school reform.The introductory essay is excellent in its elucidation of the world political economy of the 1980s and current educational reforms. It sets a clear direction for the remainder of the book, which is noteworthy for its organizational, conceptual, and written clarity. Topics include education reform and work, teacher education, continuing education, and equity. In its attempt to present alternative ways of seeing and interpreting educational/social phenomenon, this book is one of the best to appear. The essays critically assess national educational reports, books, and related policy statements that set the parameters from which much of the contemporary education debate proceeds. The work considers the contemporary school reform debate as a reflection of a conflict between dominant economic interest groups about the most efficient means of rebuilding labor productivity and American economic power. Next, the concept...
