Not illustrated. 1922 Excerpt: .balance and a simple question on the operation of a steam engine or boiler. With that paper in hand ten minutes would determine whether he would be an asset or a liability in thermodynamics; whether he was master of the fundamentals and had reached the thermodynamic level. I leave to the imagination the effects on the student attitude and morale throughout the previous period of university work. As before outlined, one of the prime conditions of mental growth is proper mental exercise. The recognition of this is so general as to be almost universal. Every textbook has exercises and problems in connection with the text. The recognized use of our laboratories and shops is to furnish exercises to the mind and not until we come to institutions frankly trade schools do we find manual skill the dominant note in instruction. Despite this widespread recognition of the...
